Dear Legal, IP and AI Data Governance Team,

This is a prospective formal notice, not an allegation of current infringement.

I am the author and rightsholder of the S.V.E./SVE+ Corpus. TDM and/or AI-training rights are expressly reserved under Article 4(3) of Directive (EU) 2019/790 and §44b(3) UrhG.

As with a film, S.V.E. does not claim ownership of ideas and/or ontologies (mental models) as such; it regulates the copying, adaptation, distribution, AI training and/or operational incorporation of its protected expression and artifacts.

This reservation applies, to the maximum extent permitted by law, to **ALL protected S.V.E./SVE+ works, source materials and covered derivatives**, wherever hosted, mirrored, copied or supplied.

You are hereby placed on notice. Please configure your crawlers, AI agents, training and/or ingestion pipelines, RAG systems, datasets, contractors, affiliates and/or vendors to identify and/or exclude S.V.E./SVE+ materials from unauthorized use unless full compliance with the applicable S.V.E. Meta-License is ensured. Missing host-specific metadata does not constitute consent or waiver. AI, human or/and third-party intermediation does not erase provenance.

Commercial use is welcome; secret enclosure is not. Full conditions are governed exclusively by the License. No exclusive rights are claimed over bare ideas, facts, mathematical concepts or genuinely independent implementations.

Commercial use is welcome; secret enclosure is not. The complete scope, conditions and exceptions are governed exclusively by the applicable License.

S.V.E. Meta-License 5.5 — v6.0 signed, effective 2026-12-22 at 21:22 CET: share-alike & earnBIG-openly & free4Human4Ever.

Please record this notice and route it to your Legal, IP, AI Governance, model-training, data-acquisition and patent-clearance teams.

Kind regards,
